HMS, Inc  
207 McHenry Ave  
Modesto, CA 95354

Dear Michael,

On behalf of the Board of Directors and staff of Save Mount Diablo, THANK YOU for your involvement with the restoration of the historic Beacon atop Mount Diablo! Thank you for your work on the Beacon with the hazardous materials that needed to be removed. Our Beacon team highly commended the work your team did to clean the Beacon of the asbestos. The "Eye of Diablo" will continue to shine for decades to come thanks to you and your donation of time, energy and expertise.

The Beacon project first took hold of Save Mount Diablo's heart a number of years ago when we saw that the weather and age were taking their toll on the Beacon. It took the teamwork and passion of many people to restore the Beacon to its current state in order to honor our Pearl Harbor Survivors.

We at Save Mount Diablo are so grateful to have had your involvement as part of a team of fantastic volunteers and partners that made this project a reality. It means the world to us that the local Pearl Harbor Survivors have confidence that the Beacon will shine for years to come for their children, their grandchildren and their great-grandchildren.

Thank you again for your passion, commitment and involvement with the Beacon restoration project!

Sincerely,

Ron Brown  
Executive Director

*"I don't know if they will ever fully realize the value of what they have done for those of us who survived. To us, the light from that beacon is sacred." Earl "Chuck" Kohler, Pearl Harbor Survivor*
